FRANCE.

LONDON, Sept. 23.—The *Times* has an editorial on the situation of affairs in France. It says if the Emperor is now recovered, his conduct cannot easily be accounted for. The new Constitution may be regarded as virtually in vigor, and the granting of amnesty and tolerance is extended to the present. Every circumstance tends to foster the conviction that a new era has dawned; yet the Emperor remains inactive, as though he considered everything done—yet public demands the convocation of the legislative body, and unesiness causes some members to contemplate the invasion of their own franchises next month with a view of deliberating without the consent of the Executive. No one, however, expects a resort to such extremes. The legality of the conduct in allowing six months to elapse between the dissolution and reconvocation of the Chambers, depends on a technical quibble. Although the legislative body separated before it was constituted, still it had given formal signs of its existence by several divisions.

PARIS, September 23.—Prince De La Tour D'Anerque, the French Minister of Foreign Affairs, and Mr. Burlingame, of the Chinese Embassy, have made arrangements for establishing improved relations between France and China, on the basis of mutual conciliation, and the French Government has sent out instructions to its representatives in China to act in accordance with this policy.

The specie in the Bank of France has increased 67,000,000 francs.

The religious journals express grief at the letter of Perre Hyacinhte.

The *Monde* says the letter justifies the fears which have long been entertained in regard to him. No such language has een heard in the French church since the middle ages.

The *Patrie* declares that the independent language and courageous tones of his sermons attracted much attention, and have drawn on the preacher the condemnation of his superiors.

GREAT BRITAIN.

LONDON, September 23.—Lord Westbury has been appointed Lord Justice of the Court of Appeals, vice Sir S. Selwyn.

The *Times* in an article on the cotton supply, says Mr. Ashwn and Mr. Bright, by different methods, arrive at the same end, namely: that nothing is wanted but more cotton. More cotton would start the mills and silence the clamor against free trade. Of this we are not sure; but we are well aware that the prostration of industry in Lancashire demand attention. Cotton is dear because it is scarce. Why scarce? The crop of the Southern States, with considerable consignments from other points, has enormously increased the supply. If less cotton arrives, Liverpool must investigate the cause. It would be safer to say that Lancashire suffers from the loss of trade more than from the dearness and scarcity of cotton. The demand for goods is less than it formerly was. If the Americans would take our manufactures as freely as we take their cotton and corn, the industry would be surely ours, and the supply of material theirs. It is not improbable that the protective tariffs of other countries are answerable in some degree for the depression in Lancashire. It is certain that in this case cheap cotton will not remedy the suffering. The loss of the market is not material. Our manufacturers commanded the world—they were better and cheaper than those of other countries. What is to be done now, that the people refuse to buy in the cheapest market? Without it free-trade manufacturing loses its value. If trade is bad in consequence of the restrictions of other countries, the scarcity or abundance of cotton is immaterial. Without doubt Lancashire suffers, because other countries refuse to trade with us freely. To attempt to relieve her, by refusing to trade freely with them, would be absurd.

Musical Convention—Music as an Element of Worship.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, September 23.—In the National Music Convention to-day, L. H. Southard, of Baltimore, delivered an address on music as an element of worship. He protested against the adoption of vulgar or popular music in churches. He did not deem the music now in use adapted to congregational singing, and consequently favored organized choirs. In his opinion, the Protestant church music, except that of the English church, has been retrograding for the past twenty years.

Other speakers followed, generally agreeing with Southard.

Convention closed with a concert in the evening largely attended.

APOLLO, PA.

Grand Republican Rally.

ENTHUSIASTIC RECEPTION OF GOV. GEARY.

Address by the Governor and Others.

[Special Dispatch to the Pittsburgh Gazette.

APOLLO, September 23, 1869.

There was an enthusiastic rally of the Republicans at this place to-day, arrangements having been made for a grand demonstration, inasmuch as Governor Geary had accepted an invitation to be present on the occasion. There was a large outpouring of the people, delegations coming from all sections of the surrounding country, thus showing unmistakably that the Republicans mean to present a united front to the old enemy at the contest on the second Tuesday of October.

Gov. Geary was escorted to the town by a large procession, consisting of citizens in carriages, on horseback and on foot, carrying banners and flags.

A meeting was organized at 7 o'clock in the evening, Hon. Darwin Phelps presiding. The Vice Presidents were: Col. M. J. Jackson, James Guthrie, Samuel Jack, S. Whitehouse, Henry M. Beatty, Capt. R. D. Ellwood, G. R. Brinner, Simon Truby, H. G. Owens, Jesse Jones, David Henderson, B. L. Brown, Col. W. H. H. Pipes, Wm. J. Sterrett, Dr. Murray, Dr. McFarland, John L. Truby, Esq., Jas. Beale, Wm. Rogers and George Paul. Secretaries, W. S. Cochran and J. B. Jackson.

Gov. Geary first addressed the meeting. He was greeted as he appeared upon the stand with loud cheers, and it was some minutes before he could proceed. Referring to the Democratic cry of "ruin," he spoke of his journey through the State, meeting everywhere, he said, evidences of unexampled prosperity, and other satisfactory indications that the people were relieved from the anxiety under which they had labored, as the result of the great political excitement attendant upon the Presidential canvass last year.

He next spoke of the Democratic statement that reform in the administration of public affairs was imperatively demanded, and showed the utter falsity of this Democratic assumption by contrasting their action when in power with their "reform" cry now.

Alluding to the national affairs, he demonstrated that Andrew Johnson in the last year of his administration had increased the debt fifty millions, while during the first six months of Republican rule, under President Grant, the debt had been reduced nearly that amount, a gain practically of nearly one hundred millions.

The State Government appeared in an equally favorable light, Republican administration, in a few years, having paid off five millions of the debt of the Commonwealth, and also added another million to the treasury to pay bonds coming due. In consequence of this the State credit had been strengthened. Pennsylvania bonds were six and seven per cent. premium, while those of other States were below par. All this, too had been accomplished without taxing real estate. County and municipal taxes should be looked to before there was was more grumbling on this score.

The pardoning business appeared in a different light by the examination of the records, showing that but one hundred and ninety-eight pardons had been issued in the last three years, while during the same period his Democratic predecessors had granted as many as one thousand, none of them less then three hundred. The whole sale remission of sentences in Philadelphia Courts, practiced for a long series of years, which had been effectually stopped, was another fact in refutation of the assertion that the Executive had abused his prerogative.

As to the charge that he had recently signed bills without due consideration of them, he showed by the record that he had issued two hundred and seventeen vetoes, averaging one for every working day of the legislative session—sufficient evidence, he maintained, that *some* care had been exercised in the matter.

He next referred to the suffrage question, and said it was better to allow those to vote who had helped to save rather than those who had sought to destroy the Government.

The Governor closed his eloquent address with an able review of the present prosperity of the State, and pledged himself, if re-elected, to administer its affairs for the public good, as he had done in the past.

Hon. Mahlon Chance, of Ohio, Jesse Kennedy, Esq., of Lancaster, and Hon. David Barclay, of Kittaning, also made speeches, and at a late hour the meeting adjourned, with enthusiastic cheers for Geary and Williams.

FROM A GARRET.

Four stories high, in a garret room,
All day I sit by a table old,
And toil at the oddest of chemic tasks—
The turning of ink into gold!
Whatever the busy world will read
We struggle to furnish, my quill and I:
Who talks of glory? The favored few:
A man must dine or a man must die!

Most bright were my dreams in the halcyon days
When Hope made merry with youth: most fair
The withered laurels no hand, no brow,
But my vows should gather and wear.
They are dead—*requiescant*—those brilliant dreams:
I can think of them calmly, with not a sigh.
Let glory be won by the favored few:
A man must dine or a man must die!

Very grand are the thoughts that now and then,
Like stately dames, through my garret-door
Seem to glide with a rustle of silken robes
On the carpetless, dusty floor.
Unbidden they come and unheeded they go:
The leisure to flatter them have not I.
They may keep their charms for the favored few:
A man must dine or a man must die!

The honors that neither were sought nor found—
Does it profit my life to regret them? I muse:
Though never to seek be never to gain,
To gain not is never to lose.
Success is the vassal of di content·
And the proudest of triumphs defeat stands nigh:
'Tis the safest of mottoes for all human toil,
That a man must dine or a man must die!

REV. WM. WRIGHT, of Boston, has so little faith in a prohibitory liquor law that he declares it to be his belief that the cause of temperance in the State of Massachusetts will be thrown back twenty years or more by it.

THE manufacturers of sewing needles in Aix la Chapelle have received such extensive orders from Asia and America—more especially from China and Japan—that it is impossible to obtain workmen enough to execute them.

NUMEROUS large veins of gray copper ore, a very rare metal, and never before discovered in any considerable quantity in this country, have just been found on the north shore of Lake Superior. This metal is very valuable for its use as the best known alloy for gold and silver.

EZEKIEL DEVOL, of McConnellsville, Ohio, who was lying critically ill, telegraphed his son, William, living in the west, to come home if he wished to see him alive. On the same day he received a dispatch that William had been buried that day. Mr. Devol died a day or two after.

STEVENSON, the young man who turned State's evidence against the gang of outlaws in the neighborhood of Vincennes, Indiana, was attacked by several of the band, a few days ago, in Daviess county, and but for his fleetness of foot would have been killed by them. They sent a shower of bullets after him.

AT Ironton, Ohio, a young man, quite inebriated, wandered near a picture gallery, and took a very awkward and ungraceful position on a board pile. The artist managed to get a fair picture of the rollocking youth as he sat, much bent up and mouth agape, and designs presenting it to his (the youth's) sweetheart.

AN English huckster advertised a quarter of a pound of tea for eightpence, "and a glass of rum given away to wash it down." An officer of inland revenue bought some tea and was treated to a glass of rum. He then summoned the man for selling rum without license, and procured the infliction of a fine of twenty-five pounds.

THE supply of water for New York, owing to the prevailing drought, has decreased to such a degree that in the residences on the more elevated portions of Manhattan Island the water cannot be forced up beyond the second story. The water is lower than it has ever been; but the city is not without an ample supply for all needful purposes.

A DROLL answer is said to have been given lately in an examination at Cambridge. The candidate being asked who Wyckliffe was, and having doubtless heard him called the Morning Star of the Reformation, and that he died Vicar of Lutterworth, answered that the great Reformer "was some time editor of the Morning Star, and died Vicar of Wakefield."

THE Bucyrus (O.) *Journal* says a young lady of that town was told that if, on the first of August, she plucked all the leaves from a lilac, it would put forth fresh blossoms and leaves the same season. Accordingly, on the second of August, the first being Sunday, she plucked from a young lilac its entire foliage, and the tree has put forth as predicted.

THE Boston Society for the Prevention of Cruelty to Animals are after a gentleman who keeps a boa constrictor for his own private edification, and who feeds the snake on living cats. The owner claims that the serpent will not eat any but living food, and that to save the cats he would be compelled to starve the snake, which would also be an act of great cruelty.

DELAWARE is a small State, and is growing smaller. The Delaware encroaches upon it from ten to twenty feet every year, and the sites of houses that once stood in the midst of fields are now under water. The lighthouse near Bowers' Beach has been removed three times, and a small hotel on the same beach that once stood in the midst of cultivated grounds, a considerable distance from the bay, with large trees in front of it, has its walls now washed away by the waters.

DURING the New England Fair, at Portland, Maine, last week, an old lady from the country, with her husband, stopped before De Haas' painting of Admiral Farragut passing the rebel forts, and gazed upon it intently. Finally, drawing a long breath, she turned to the old man and said, seeing six thousand dollars marked on the painting, "Only think, husband, they ask sixty dollars for that picture." "Well," said her husband, "I suppose it must be worth it, for it's mighty big picture and there's lots of work in it."

GOLDSMITH MAID, the celebrated trotting mare, was raised in Wontage township, Sussex county, N. J., by R. Decker, who sold her for $400 to Mr. Tompkins, of Orange county, New York. After keeping her about six months, Mr Tompkins sold her to Allen Goldsmith for $600 and an old wagon. Mr. Godsmith owned her for several years, and developed her trotting qualities. Budd Doble subsequently brought her for $30,000. Immediately after the race at Buffalo, Senator Sprague offered $30,000 for her and was refused, her owner stating that her price was $50,000

IN view of the approaching centennial celebration in Bangor, Maine, the *Whig* has begun to publish the recollections of the oldest inhabitants. One old lady tells a story of her grandfather who lived on State street, about a mile from the post office. In 1771 the British soldiers were about conscripting the colonists for service. Hearing of their approach, the women of his household induced her ancester to take his bed, and they drugged him with hot herb drink till he certainly bore the appearance of extreme infirmity. The soldiers appeared, and were informed that he was undergoing treatment for one of his rheumatic attacks, when they withdrew in disgust.

THE new State House for West Virginia, at Charleston, is thus described: "The front elevation shows a three-story building, with two projecting wings; a tower springs from the front entrance, and is surmounted by a French roof and small belfry. The building has four main entrances. The ground plan of the first floor shows six offices, a vestibule and corridors. The hall of the House of Representatives is on the second floor, and occupies the wing on the left of the building, and the Senate Chamber the wing on the right. The State Library occupies the space over the vestibule. The third-story will be occupied by the Supreme Court of Appeals and the Law Library.

THE Richmond (Virginia) *State Journal* says William O. George, an old citizen, died recently, leaving $250,000 and no will, but a number of relations. A few days ago a lawyer claimed the property for Mrs. Jackson, a mulatto woman, living in Philadelphia, with whom George had cohabited before the war, and by whom he had several children. The claimant alleges that she was married to the deceased about a year ago in Philadelphia, and that she has a certificate of the marriage, and other papers and witnesses to prove that Mr. George took this method of legitimitizing the children in order that they might inherit his property. The relations contest her claims, and the case goes before the United States Court for a decision.

MRS. SARAH E. COTTON, of Newburyport, is a philanthropist. Recently, in passing over a bridge, she discovered a hole in one of the floor planks in a very dangerous locality. Early the next morning she was seen on the bridge with a piece of plank of sufficient dimensions to repair the dangerous spot, which she had carried from her residence, about a mile, and nailed the same securely.

A MAN by the name of Zeke Eads, in Green county, N. Y., is strangely deformed. He is without ears, and never had any. He gathers sounds through the medium of his mouth, and can hear anything said to him in an ordinary conversation. Equally as strange, his hair is black, with white spots nearly as large as the palm of a man's hand interspersed through it. He is about 45 years of age, and the happy possessor of thirteen living children. His occupation is that of a chairmaker.

MRS. HANNAH DEBOW, of Pompton, Morris county, New Jersey, who was born March 5, 1770, died on the 7th inst., aged ninety-nine years six months and two days. She was the mother of eleven children, eight of whom are living. The daughters are all widows; their ages vary from fifty-three to seventy-nine years. Her descendants in children, grand-children, great-grandchildren, and great great-grandchildren number three hundred and fifty, a large portion of whom are living. She has attended the funerals of nine sons in-law and one daughter-in-law. Mrs. Debow remembered many incidents of the Revolution and the encampment of the French troops at Pompton, and maintained her faculties to the last.

A WEALTHY young Spanish lady entered a dentist's office at Virginia City, Nebraska, the other day, to have her teeth filled. She was seated in the operating chair, and parting a pair of rich and tempting lips, displayed two rows of ivory white and glistening teeth. The doctor couldn't understand it, and told her that she had no teeth which required filling and none to be extracted. She couldn't understand much English, and the doctor don't speak Spanish, and so the conversation grew lively by signs alone. Again did he search, but with no better success. He began to get excited. At last she rushed from the office and soon returned with a lady of fashion, whose front teeth disclosed the gold. The dear thing only wanted to be in the fashion.

Singular Affair in Switzerland.

A letter from Geneva, in the Paris *Siecle*, has the following:

An almost incredible circumstance has recently occurred in Switzerland. I should be happy if I could entertain a doubt on the subject, but an article in the *Suisse Radicale* confirms, and even aggravates, the recital which has been made to me. A Russian lady, the Princess Obolenski, separated for many years from her husband, a General in the Russian service, was living with her children near Vevey. On an intimation from the Emperor Alexander, the Prince wished to take back his children, and bring them to Russia. The Princess refused to comply with his demand. Instead of commencing an action against her, the Russian officer entered into a conspiracy with the federal and cantonal police. One fine morning, at seven o'clock, accompanied by the Sub-Prefect Duprez, and some gendarmes, he entered the residence of the Princess, possessed himself by force of the children, and sent them to Berne. The eldest daughter was absent, and, having learned what had taken place, she concealed herself. Then a general search for her commenced in the houses of the Russian and Polish refugees, but nothing was discovered. Obolenski then went to Geneva, and obtained there the same ready assistance on the part of the police. At that town took place the most monstrous fact of this sad history. A Russian General in active service entered with Swiss gendarmes one of the printing offices belonging to refugees from his own country. Whilst he was making his domiciliary visit on the premises, the two printers were held apart by the gendarmes. I shall not enter into any detail, and I pass over certain illegal arrests made. I shall wait to see in what manner the Federal Council will excuse the evident illegality of these proceedings in a republic.

DR. WHITTIER
CONTINUES TO TREAT ALL
private diseases. Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated; Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A.M. to 8 P.M. Sundays 10 A.M. to 2 P.M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, Sept. 23, 1869.

Business continues moderately active, though it might be a good deal better; that there will be an improvement within the next thirty days, is generally expected, and hopes of a good fall and winter trade are entertained. It looks now as though there would not be much chance for speculation, and those who want and expect to make money, will have to do it in the old fashioned way, by doing legitimate business; money matters are working very close, and the banks here are not disposed to afford much encouragement to speculators of any kind; as a general thing these speculators work on borrowed money, and this is what makes it so ugly in the case they go under; they not only ruin themselve, but, in many cases, cripple, if not ruin others.

APPLES—The market is completely glutted, and with only a moderate demand, prices are weak and drooping; we now quote at $1@2 per bbl.

BUTTER—Also is very dull, with a supply largely in excess of the demand, and prices are drooping; sales of prime to choice at 28@30.

CRANBERRIES—Sales of prime eastern cultivated at $12@13 per bbl.

CHEESE—Is quiet and unchanged, ranging from 14 to 16 cents, as to quality.

CARBON OIL—Quiet and unchanged, may be quoted at 29 for round lots, and 30@31 in a retail way.

EGGS—Dull but unchanged, sales at 23.

FEATHERS—Dull; quoted at 80@85 cents to the trade, and the usual advance for small lots in store.

GROCERIES—The advance in gold has materially effected both sugars and coffees, and the market is considerably excited and prices higher, and as nearly always is the case, when prices are advancing, the demand is more active, and holders are less anxious to realize. It is not probable, however, that the advance in gold will be maintained for any considerable length of time, and in case it goes back, sugars and coffees will doubtless follow—the one will go with the other. RIVER NEWS.

The river remains stationary with scant two feet by the metal marks, it is claimed, however, that there is more water than these marks call for, and we understand that the Belle came in yesterday afternoon, drawing 26 inches. Weather continues cloudy and sultry, with indications of rain. Thermometer 79 in shade.

The Belle did not arrive until yesterday afternoon, having been delayed by fog and low water combined. She was to have left again last evening.

The Batesville, Capt. C. W. Cole, is announced to leave for Memphis and White River on Saturday. She is a bran new boat.

The Bellevernon is filling up steadily for New Orleans, as also the Maggie Hays for St. Louis; both of these boats will leave on the first rise of water.

—John H. Wilson, is now chief clerk of the Spray.

—The Octavia started up the Missouri, Monday night, to assist the snagboats.

—Captain Asa Booth will take command of the Allegheny Belle when she comes out.

—The R. C. Gray for Memphis, and Mary Davage for New Grieans, are loading at Cincinnati.

—Captain J. W. Parker purchased a one-fourth interest in the Lady Pike, at Dubuque, on the 20th, for $4,000.

—Capt. G. W. Ebert, of the Mollie Ebert, has brought suit against a Mr. Robbins, of Jeffersonville, for failure to ship forty head of stock according to contract.

—The Wild Duck and barges, from Pittsburgh, passed Cincinnati for St. Louis, on Tuesday, with a tremendous cargo. Pilots, Ed. Chapman and Leander Patterson.

—The Sallie left Wheeling for this pert on Wednesday evening, drawing 33 inches. Capt. Stockdale expects that she will be able to reach Glass House without much trouble.

—Mr. R. G. Shinkle, a well known Cincinnati and St. Louis pilot, was married to Miss Mollie Behrman, at the residence of the bride's mother, Newport, on Tuesday last.

—The Norman was purchased at Evansville, the other day, by W J May from Dr. Kennedy for $10,000. She will be placed in the Evansville and Cincinnati trade, in command of Capt. P. K. Barclay.

—The Evansville *Journal* gives the following as the owners of the Phantom: A. S Jones, $1,500; J. B. Sleath, $750; E. B. Jones, $500; Bennett Dycusburg, $1,000; J. M. Beverly, $500; Lockett & Johnson, $250; George Rock, $250; Robins & Bro., $250; J. A. Mackey, $250; Kay & Scott, $250; Sengenfelter & Reed, $250; Enens & Ross, $250.

—On the 16th, Capt. Burdeau, agent at New Orleas of the St. Louis Barge Co. completed a shipment of 10,000 bbls of flour direct to Liverpoole. During the last few weeks he has shipped over 50,000 bbls in the same direction. All of this flour has been shipped by through bills of landing from St. Louis.

—Mr. Morrill, an experienced civil engineer, left New Albany, last week, to servey the lower Ohio, hence to Cairo, by order of General Weitzel. The party, Mr. Morrill and five men, embarked in a large yawl, surmounted with a canopy of canvas, and will be absent several weeks. They will accurately measure the distanse to Cairo, sound the principal bars, and make a chart of the river.

—A St. Louis telegram, under date of Tuesday, says: The Camelia left for Pittsburgh with a full cargo of grain, hides, iron, &c., also a full cabin, some passengers not being able to obtain berths. Most of her cargo is for Louisville. Captain William Fitzgerald has bought Captain Conzales' three eights of the Mary McDonald, and now owns the entire boat. The Flirt is repairing, and will probably load for Red river this week.

BOROUGH AND TOWNSHIP ELECTIONS.

Again, we remind our readers in the boroughs and country townships, as well as in the larger cities, of the duty of providing for the election, in October, of all the officers whom they have heretofore chosen in the Spring. By the present law, the Spring elections are abrogated altogether, and all the elected officers of the people, from Governor down to constable, are to be chosen at the October polls. Consequently, the usual business of the spring must be attended to now. It is time that the nominations were made, and for every local office, except the Assessors who hold over until the election of 1870.

WISER THAN THEY SEEM.

If the writers on the *Post* were as ignorant as they sometimes appear to be, they would be more suitably employed in breaking stone on highways than in assuming to enlighten the public on important questions. The Republican party exists for certain ends, and no others. The ends it has in view have been proclaimed over and over again, and always with a distinctness sufficient to make misconception impossible.

That party takes no account of differences in religious faith and worship; of divergent ideas and purposes as to Free Trade and Protection; or as to whether its members make, vend or drink intoxicating beverages, or abstain therefrom.

This is why this journal has not concerned itself with Governor GEARY's habits or professions in regard to Temperance. If he sees proper to drink or not to drink certain beverages, that is a matter which does not concern the Republican party, but himself only; unless, indeed, if he should see proper to drink, he should indulge to such a degree as to affect his competency as a public officer. Except under the condition stated, it would be a piece of impertinence for us, as it is with the *Post*, to drag his professions or practice in this regard into current political discussion.

The GAZETTE supports GOV. GEARY for re-election under the impression that he does not drink, just as it supports other candidates on the ticket under the impression that they do indulge. If ever the Republican party shall take ground on the Temperance question, either on the one side or the other, it will be time enough for us and others to determine what we will do in the premises—whether we will maintain our fealty to it, or accept other affiliations.

What we have thus stated to be the position of the Republican party is with equal absoluteness, the position of the Democratic party. Some of the exponents of the latter party talk and write as if the last National Democratic Convention not only took ground on this topic, but took ground most decidedly against Temperance and in favor of Indulgence; but if we were so to affirm, the *Post* would speedily arraign us as slanderers of our opponents.

AN EXCUSE THAT IS NOT ONE.

The *Commercial* explains that what it hopes to accomplish by a People's movement in opposition to the Republican organization in Allegheny county, is "the abolition of the fee system and the establishment of a scale of fair and equitable salaries for every official at the Court House." We have no objection to the change proposed, and presume that no citizen of the county has except the holders of the offices in question or those who expect some day to hold them. But, that the attainment of the end aimed at, even if that was the real and only one, justifies ceaseless attempts to bring the Republican party into contempt, we do not believe. A change identical to that which our neighbor proposes in the pay of county officers was effected a few years ago, in the national consular system, and easily enough, without resorting to a raid on any political organization; and all other changes of similar character, which shall be fairly presented to the popular attention, will surely be accomplished, without resorting to the extreme measure urged by the *Commercial*.

The law as it now stands, and has stood for many years, requires all county officers to keep a fair and accurate account of the fees received by them respectively, and to make returns thereof to the Auditor General under oath, who shall examine the accounts, and exact of the officers, for the use of the Commonwealth, one-half of all the fees amount to in each case over fifteen hundred dollars annually. We do not know that all the accounts thus rendered are accurate, or that all the oaths thus taken are conscientious, or that one-half of the excess of fees above fifteen hundred dollars a year for each officeholder is all the State ought to exact. Nor are we clear that it is best for the public that these fees should be made a source of revenue; though it is clear that whatever may be relinquished from this source, must be made up in some other way.

The intention of the existing law is clearly to reduce to a reasonable point the emoluments of the county officers. Perhaps it comes as near attaining that end as any one that can be framed. Greedy men in public employments are pretty certain, by operating on the ignorance of citizens, to get more than they are entitled to, and such placemen are not likely to let their illegal gains appear in the returns they make to the Auditor General. No effectual remedy can be found against these practices in any statute that can be framed; but only in the character of the men selected for public trusts.

It remains for the members of the Republican party in this city and county, each for himself, to determine whether the motive avowed by the *Commercial* for its chronic spleen against that organization is the true one, or whether a flimsy pretext is brought forward, either because no other exists or because the time has not arrived for an honest disclosure of intentions.

THE CUBAN FRAUD.

A Washington dispatch of the 22nd says:

It has been discovered by an official at the State Department that the Cuban Constitution, published in May last in the United States, differs from the one promulgated in Cuba in July. The former is anti-slavery in its sentiments, while the latter contains clauses recognising slavery and upholding it throughout the island in case the insurrection is a success.

Months ago, this journal invited public attention to the palpable fact that this Cuban revolt was a movement purely in the interests of the perpetuation of African slavery upon that island. We have never hesitated to speak of the so-called Cuban Constitution, promulgated by Cespedes and his insurrectionary junta, as a bald sham in so far as it purported to declare the abolition of slavery. We have often denounced the trick which sought to engage our republican sympathies, by its high-sounding proclamations in behalf of human liberty, while the maintenance of every odious and wicked feature of the existing institution, in the districts commanded by the flag of revolt, gave proof of the real policy which seeks the perpetuation of slavery in the overthrow of the Spanish authority. We have as often directed the notice of our readers to the equally undeniable fact that the armed resistance of these insurgents has presented the only obstacle to the immediate liberation of all the Cuban populations, under that great charter of universal freedom, the new Constitution of Spain. And we take pleasure in remembering that we have as steadily and faithfully remonstrated in the twelve months past, against the fatally mistaken policy which sought to embroil the Government of this free Republic—where universal freedom has just been secured at so fearful a cost—in a foreign controversy and, of all things the most disgracefully unfortunate, upon the side of those who uphold and maintain the same accursed blot upon Christian civilization, which nearly dragged the Great Republic to its ruin.

Insisting, as we have, upon these views, we have constantly deplored the current efforts of a portion of the eastern press to mislead the American public, as to the real merits of the Cuban question. Our protests have neither been few nor mild against the ignorance or the wickedness of those journalists, who have spared no efforts to plunge our government into such overt demonstrations, in behalf of the Cuban insurrection, as would, in view of the positive facts, not only have defeated our diplomacy with England, but would have rendered us simply infamous in the judgment of an enlightened and humane world.

That, misled by a palpable trick, our Republic should be found upholding revolt in the interests of slavery against the salutary application of that great dogma of universal freedom which has just won another splendid apotheosis in the new birth of the Spanish people, has seemed to us, as to all thinking and right-thinking men, a proposition too monstrous to be endured.

The *Gazette* has not been altogether alone in its fidelity to the principles of republican freedom in these premises. But we can count upon our fingers the whole number of the leading American journals which have stood with us upon our proper relations towards this Cuban matter. That number will be larger now. The fraud which has just been exposed at Washington will strip Cuban "sympathy" in this country of all its meritorious pretense. Those journals which have been vehement in urging the "just" claims of Cuban freedom upon the regard of the American people, will, for the future, stand dumb. If Cabinet councils have been divided, they will be so no longer. When Congress assembles, it will know clearly enough how to deal with a question which has never concerned us in any aspect whatever, and which now, more than ever, repels the humane sentiment of the American people.

Intervention of any sort in this quarrel is quite out of the question. But we do not hesitate to affirm that if such a policy were justifiable at all, it should rather prompt this government to uphold than to seek the overthrow of the Spanish authority in Cuba. For it is clear that only in that direction are we justified in looking for the extinction of slavery in the Spanish islands. Since the foreign policy of a nation cannot be solely humanitarian, we may not be permitted to intervene for that cause, but it is plainly our duty to avoid the opposite mistake. The freedom of all the Cuban populations, irrespective of race, color or condition, must not be postponed by an inexcusable blunder of ours!

THE WILKESBARRE *Record of the Times*, in reviewing some of the absurd propositions of New York journals for ensuring the safety of workmen employed in mines, makes hard hits. Take this as a sample.

"Take the Dundee shaft in Hanover, eight hundred feet deep, and as fiery as Pine Ridge, with a large stream of water pouring into it from some point nearly a hundred feet from the surface. When the company shall conclude to work it, how are the men to find two ways to get out and in before they have worked out at least as much coal as at Avondale? We should like the advocates of coal at $5 per ton in New York to try the expense of a shaft 800 feet deep, and they would decide on seeing where a second shaft was needed. Then we should like to see them engineer a coal operation with all the breakers and machinery at a distance from the shaft. Indeed, we should be pleased to see the wisdom of the many writers on this subject in the city papers shine over this land at *their own cost*, as they will not accept the experience of the neighbors who have learned in other ways than 'Consumers' Benefit Schemes.'"

Pennsylvanians know how stupid and uninformed the best of the New York journals are on all matters pertaining specially to this Commonwealth and its ongoings. They begin more than to suspect that in other matters concerning which their knowledge is not as definite, and in relation to which those journals are equally oracular, they may be just as ignorant and unreliable.

STATE POLITICS.

THE Somerset *Whig* says "the spirit of the mass indicates an old time majority for our nominees."

The Altoona *Vindicator* (Dem.) was sold out by the Sheriff on Monday, for $1,530, and was bought by Messrs. Valee and Rawlins, of Philadelphia.

IT is announced that Mr. Stutsman has withdrawn from the Senatorial nomination in the Bedford district. His successor upon the Republican ticket has not been named.

A LARGE meeting was held in Blair county, at Williamsburg, on the 16th inst. Mr. P. Vandevender presided, and the speakers were Messrs. John Dean and L. W. Hall.

THE Republicans of Mauch Chunk and and East Mauch Chunk nominated their local tickets on Saturday last, under the Crawford County System, It worked well, and gave general satisfaction.

LAST Tuesday a very large meeting was held in Somerset, in the court house, which was quite packed with people. George G. Walter presided. Hon. T. J. Bigham, Hon. Mahlon Chanee and Hon. John Cessna were the speakers.

A GRAND Republican rally opened the campaign in Lancaster, on Wednesday. Five or six speakers were present, patriotic resolutions were passed, and the meeting finally adjourned with three rousing cheers for Geary, Williams and Victory.

THE Carlisle *Herald* has changed hands, Reeham & Dunbar, late proprietors, having sold to Wheakly & Wallace. It will continue the same energetic Republican organ of the Valley, it has been under the old firm.

THE Raftsman's *Journal* says Judge Williams was defeated in 1867 by the coffee-pot naturalization papers. Let every Republican see to it, that justice is done by his election in 1869. He is an ornament to the bench, and an honor to his State, and should be kept in the judicial office for which he is so preeminently fitted.

A REPUBLICAN mass meeting is announced to be held at Harrison City, Westmoreland county, Oct. 6th. Hon. John Scott, Hon. W. H. Kuhns, of Somerset, Gen. William Blakely, of Allegheny, A. M. Fulton and J. A. Hunter, Esqs., of Greensburg, will make speeches on the occasion. A prize banner is offered to the township in the county, or adjoining counties, having the "largest and handsomest delegation."

STATE ITEMS.

NEXT Tuesday the Masonic Grand Lodge officers will visit Pottsville for the purpose of instruction.

WASHINGTON THESSINGER'S farm of 120 acres, in Berks county, near Exeter station, has just been sold to Dr. Bergner, of Reading, for $40,000.

SOME parts of Lehigh and Berks counties are overrun with grasshoppers. In many localities they have taken possession and destroyed every particle of grass.

ON Monday of last week Mr. John T. Crusan, of Armstrong township, Indiana county, fell from a peach tree and received injuries which resulted in his death on the Friday following.

THE Schuylkill Navigation Company have requested the Philadelphia City Council to indemnify them with the sum of $400,000, for the use of their water during the late dry spell.

N. W. ACKLEY, Esq., fatally injured by the railroad accident at Athens, on Monday last, was not one of the Republican nominees for Assembly in Bradford district, but resided at Dushore, Sullivan county.

The Coroner's Jury, in the case of the railroad accident at Athens, Bradford county, censure the conductor of the way train for disobedience of orders, and the train dispatcher at Towanda for running a fast train a few minutes behind a slow one.

AN alligator escaped from a schooner from Mobile, is enjoying himself in Mill Creek, West Philadelphia. People who used to swim there swim there no more. The idea of losing a four pound chunk out of the fleshy portion of one's person is far from pleasant.

ROBERT THOMAS, aged about sixty years, a native of Wales, residing at Indiana, was killed on Monday last. He was riding in a wagon from which he was jolted, and the wheels passing over his stomach and breast inflicted injuries from which he died in forty minutes.

LANCASTER county grows more tobacco than any other county in Pennsylvania, the annual value of its crop being estimated in a general way at "several millions of dollars." Many of the farmers raise tobacco—just enough for their own smoking, but not as an article of commerce, except in very few cases.

MR. S. W. SHELDON, of Spring township, Crawford county, invested one dollar in a pound of Early Rose potatoes last spring, the pound consisting of three potatoes. He planted them, giving them the usual cultivation, and last week on harvesting his crop he found he had one hundred and thirty pounds, measuring up over two and one-half bushels of good sound potatoes.

PENNSYLVANIA FARM ASSOCIATIONS are popular among the Germans residing in New York city. A tract of land composed of 50,000 acres, in Potter county, has been settled on this plan, and has located upon it a thriving village, called Germania. The farms of twenty-five acres each are sold for $300, and are paid for in instalments of $2 a week. The associations organized for the purpose of obtaining farms at low rates, consist of fifty members each, and purchase large tracts of 1250 acres.

ON Friday of last week a citizen of Beaver got into the cars of the P., Ft. W. & C. R. R., at Pittsburgh, to return home, and while *en route* went into the baggage car, seating himself on a chair near the door, too near, unfortunately. After being thus seated for a few moments, he made an effort to lean himself back against the edge of the door, when one leg of the chair slipped over the threshold, precipitating man, chair and all out of the car and down over a slight embankment—the train running at the rate of thirty miles per hour. The cars were immediately stopped, and upon going back for the unfortunate being, it was discovered that he had escaped without any serious injury.

THERE is a colony of that rare insect, the *Stinges Grandis* of Say, located the present season on the south bank of the turnpike, east of Crawford's grove, about a mile above Norristown, Montgomery county. This curious insect—a mammoth hornet—burrows in a bank to the depth of one or two feet, making a smooth hole of an inch diameter, into which it deposits one or more of the Cicada, or annual locusts, as food for its young, after the fashion of the mud wasps, the eggs of the hornet being deposited on a little cist besides the prey. By examining the bank the holes may be found by the handful of fine earth thrown out by the excavation, and a foot or more digging will unearth this curious lion of the insect world.

IN Philadelphia there is trouble about registering. The Board of Aldermen, at a meeting on Tuesday, instructed the canvassers to issue subpœnas to all persons whom they may have reason to suspect have been surreptiously or illegally placed upon extra assessment lists, commanding such persons to appear before them and produce a receipt for taxes, and if a naturalized citizen, to produce his papers, and also two qualified electors whose names appear under the head of "private householders," who shall be examined under oath or affirmation, and evidence shall be required of them that such person is personally known to them, and that he has all the qualifications now required by law, and if such person fail to appear and produce such evidence as is by law required, to strike the name of every such person from the registry, drawing a red line through the same.

THE Bloomsburg *Columbian*, (Columbia county), relates "A Mysterious Affair." Some twelve years since a man named Moses Savage returned from California, having in his possession, so rumor said, a large amount of gold. He stopped one night at the house of Wilson Ager, in Rohrersburg, and upon the following morning his brother, Joshua Savage, on calling at the house, was informed by Ager that Moses had taken his departure at daybreak. From that day he has never been seen or heard of. At about this time Ager closed up a well on the premises, which had always furnished good water, declaring it to be in an unfit condition for use. On a subsequent day he peremptorily forbade the cleaning out of this well, work having been commenced by directions of Mrs. Ager. Ager left home a short time after the disappearance of Savage, stating that he was going to California. On his return, which was thought to be too soon for so distant a journey, he had with him a large amount of gold in a bag. A few days since the disused well was cleaned out and bones were found therein, which medical men pronounced to be the bones of a human being. The circumstances of the disappearance of Savage, the closing of the well, Ager's refusal to have it opened, his possession of a large amount of gold, his speedy return from a long journey and the finding of the bones in the old well are considered very suspicious, to say the least, and a full investigation of the affair will likely be made. It is understood that Ager is now living in Washington City, or in Virginia near that city.

THE Vienna Common Council has voted to petition the Government to suppress all convents and religious communities of every kind whose customs are contrary to the organic laws of the empire. Austria has 676 convents, with 6141 monks and 4914 nuns, and Hungary has 295 convents, with 2630 monks and 770 nuns.

THE London *Times* appends this notice to its report of the Norwich musical festival: "Mr. Barclay, who gives no address except in London, and who has insulted our musical reporter at Norwich by writing him a letter enclosing £20 in notes in order to influence his criticism on some of the performance at the festival, is desired to call at our office for those notes, which will be delivered to him after he has described them, and given their numbers and his address."

WHO is the American citizen of whom the Paris *Temps* tells this story? He possesses a pair of old boots worn by President Lincoln, and not being a man of sentiment, instead of putting them into a glass case, he undertook to put them on his feet. They would not go on, so he cut them into strips, and had the fragments manufactured into a cane, with the aid of which, says *La Temps*, if he does not walk in the path of honor and virtue there will be no use in expecting any good from relics hereafter.

THE popular impression about Italy as the land *par excellence* of assassination, has, it appears, some basis in fact. The proportion of homicides to population is the highest in the peninsula, being 10.82 for every 100,000 souls, while in Spain it is 8.24, in Sweden 2.02, in England 1.95, and in Belgium only 0.16. About a fifth of the cases of homicide in North Italy are infanticides, the proportion diminishing as we go south, till in Sicily it is only 2 per cent., a reduction probably in inverse ratio to the importance attached to chastity.

THE draught that prevails almost every year in India, it is stated, is caused by the stripping of the country of the trees, in consequence of the increased demand for timber for making railroad ties. It is asserted that the actual quantity of rain has diminished in the plains; that the clouds break only on the hills; and that the rainfall, instead of fertilizing the land, is wasted in rushing floods, which deposit more sand than fructifying soil. The volume of water in the rivers has decreased, the level of water in the wells has receded, and the slightest decay or failure in the annual supply is fatal to the crops of the year. The remedy proposed is the encouragement of the planting of trees by private enterprise, as well as the cultivation of the forests by the government.

The Code of Honor.

The code of honor is a code which puts gentlemen at the mercy of bullies. In the most plausible case that can be suggested it does this; and as the feeling which justifies it is wholly morbid, you might as well reason with a miasma.

Still, this may not seem to dispose of the question. In the present state of feeling you insist that it is a very serious injury to a man to acquiesce in an insult. If at a public table, say at Saratoga, at Newport, wherever it may be a person suddenly arrests attention by loudly exclaiming to you across the table, "Sir, you lie; you are no gentleman," and then swashes a bumper of port into your face and over your most miraculous shirt-front, what is to be done? You declare that if the insulted person merely changes his shirt the stain remains, honor cries aloud for vengeance, and he will find that he had better leave the place if he intends to do nothing. Very well; what ought to be done? Let the opponent be of his own circle, and not a recognized adventurer or black-leg—and still, what shall be done? Shall he demand an apology, and, if it be refused, blow out the brains of the offender: or take any of the milder measures, such as turning his nose with some vehemence, or caning him in the street; shall he offer the person who has insulted him a chance to kill him also?

And if you, who are the insulted person, as it is called, do any of these things, why do you do it? If, indeed, in hot blood, you fly at him across the table, or fling a decanter at him as a Roland for his Oliver, you do as all men do who lose their tempers. But that is quite another affair. If, however, you proceed in any of the manners we have mentioned, you do it because of a certain public opinion. The real question for you, then, is whether it is a right or wrong public opinion, whether you ought to yield to it or protest against it. That is a question upon which it should seem that few gentlemen ought to differ. The business of gentlemen is obviously to elevate and purify public opinion; and this is done in many ways, but in none more effectively than in guarding their own conduct. Boston Gentleman No 1 is perhaps generally supposed to have resented an insult in an amusing and appropriate manner. But why was not his behavior, in irritably pushing and pushing at the bags and baby wagons of a passenger who had stated his intention to vacate the seat, quite as insulting as the remark which that passenger made upon rising? Upon a fair review of this leading case, then, ought not a gentleman to decide that his duty is not to assert his gentility by turning the nose of the doubtful Thomas, but by quietly despising the public opinion which requires him to turn it?—EASY CHAIR, *Harper's Magazine for October.*

CHICAGO, September 23.—At the afternoon board No. 2 wheat was active and higher, with sales at $1,18 cash, $1,17¼ seller October. Corn quiet and easier at 78@78¼c seller the month, 79@79¼c seller October. Oats quiet and firm, 42¼c seller October. In the evening nothing was done in the grain market. Lake freights dull and vessels wanted, but carriers refused the rates. Provisions dull and unchanged.

WASHINGTON, PA.

The President Gone—Result of His Visit—The College—The County Fair—Political.

WASHINGTON, September 22, 1869.

General Grant and his ramily left here yesterday, going by way of Wheeling to Washington city. A dispatch took them away a day or two sooner than they had purposed to go. While here the President endeared himself to the people very much. He is emphatically one of the people, and wherever he goes he must make hosts of friends.

Our Annual Fair began to-day auspicuously. If to-morrow should be a pleasant day, there will doubtless be a great gathering of the citizens of the county.

Washington and Jefferson College is now opening its fall term. Dr. J. I. Brownson is acting as President *pro tem.* The injunctiou is, for the present, a troublesome thing. It will be cheerfully endured till it can be removed. It can work but temporary disadvantage to the College. The final adjudication of the matter will set all right. The prospect for students is rather cheering.

The political campaign is slowly opening. The Senatorial question has been an incubus. It is difficult to create enthusiasm. Mr. Rutan is now canvassing this county in connection with other candidates. He reports signs encouraging—is confident he will be elected. If the Republicans carry the election in this county they must work vigorously—must leave no stone unturned.

AMICUS.

THE particulars of the murder of Fraulein Tinne, the Dutch lady, while traveling in Africa, are given by a Malta correspondent of a London paper. For better protection, she had engaged the services of two chiefs to escort her to Ghat. The chiefs quarrelled, or pretended to quarrel, when two Europeons in her service indeavoring to pacify them got first mutilated and then slain, whereupon Miss Tinne, nothing daunted, made her appearance to pacify the contending, chiefs, who, seeing her with uplifted hand and fancying that the she was about discharging a revolver, aimed a cut with a scimetar, and chopped off the lady's hand, and immediately after a ball pierced her breast and left her lifeless. A young Algerine girl in her service was carried away, but all the others, men, women and children, Mohamedans, were spared, and were on their return to Movrzourk, to which place they will endeavor to carry the body of their mistress, who had expressed a wish, if anything happened to her, to be interred in Mourzourk. Not only was the body stripped and plundered before it was cold, but also her money, jewelry and baggage shared out among the lawless escort. The news reached Tripoli August 18th. Two of her nephews have gone tu look after her body.

—It was reported in Albany, New York, last night that Adam Van Allen, cashier of the First National Bank of that city, was arrested on a charge of defrauding the United States Government, by using cancelled revenue stamps, and taken before United States Commissioner Frothingham, who admitted him to bail in $5,000.

THOU BRINGEST ME LIFE—LUNG-WORT.

One of the truest and most suggestive ideas can be obtained from the caption at the head of this article; for of all diseases which impair human health and shorten human life, none are more prevalent than those which affect the lungs and pulmonary tissues. Whether we regard lung diseases in the light of a merely slight cough, which is but the fore-runner of a more serious malady, or as a deep lesion corroding and dissolving the pulmonary structure, it is always pregnant with evil and foreboding of disaster. In no class of maladies should the physician or the friends and family of the patient be more seriously forewarned than in those of the lungs, for it is in them that early and effielent treatment is most desirable, and it is then that danger can be warded off and a cure effected. In DR. KEYSER'S LUNG CURE you have a medicine of the greatest value in all these conditions. An alterative, a tonic, a nutrient and resolvent, succoring nature and sustaining the recuperative powers of the system, Its beautiful workings, in harmony with the regular functions, can be readily observed by the use of one or two bottles: it will soon break up the chain of morbid sympathies that disturb the harmonious workings of the animal economy. The harrassing cough, the painful respiration, the sputum streaked with blood, will soon give place to the normal and proper workings of health and vigor.

An aggregated experience of over thirty years has enabled Dr. Keyser, in the compounding of his LUNG CURE, to give new hope to the consumptive invalid and at the same time speedy relief in those now prevalent, catarrhal and throat affections, so distressing in their effects and so almost certainly fatal in their tendencies, unless cured by some appropriate remedy. DR. KEYSER'S LUNG CURE is so thorough and efficient, that any one who has ever used it, will never be without it in the house. It will often cure when everything else fails, and in simple cases will cure oftentimes in a few days.

The attention of patients, as well as medical men, is respectfully invited to this new and valuable addition to the pharmacy of the country.

DR. KEYSER may be consulted every day until 1 o'clock P. M. at his Great Medicine Store, 167 Liberty street, and from 4 to 6 and 7 to 9 at night.

KEEP THE BODY IN GOOD REPAIR.

It is much easier to keep the system in good condition than to restore it to that condition when shattered by disease. The "House of Life," like other houses, should be promptly propped up and sustained whenever it shows signs of giving way. The first symptom of physical debility should be taken as a hint that a stimulant is required. The next question is, "what shall the stimulant be?"

A wholesome vegetable tonic, the stimulating properties of which are modified by the juices and extracts of anti-febrile and laxative roots and herbs—something which will regulate, soothe and purify, as well as invigorate—is the medicine required by the debilitated. There are many preparations which are claimed to be of this description, but HOSTETTER'S STOMACH BITTERS, the great vegetable preventive and restorative that has won its way to the conddence of the public and medical profession by a quarter of a century of unvarying success, stands pre-eminent among them all. To expatiate on its popularity would be to repeat a twice told tale. It is only necessary to consult the records of the United States revenue Department to learn that its consumption is greater than that of any other proprietary remedy of either native or foreign origin

As a means of sustaining the health and strength under a fiery temperature, the BITTERS have aparamount claim to consideration. It has the effect of fortifying and bracing the nervous and muscular systems against the ordinary consequences of sudden and violent changes of temperature, and is therefore peculiarly useful at this season, when hot sunshine by day and ice-cold dews by night, alternately heat and chill the blood of those who are exposed to them.

HOSTETTER'S STOMACH BITTERS are sold in bottles only. To avoid being deceived by counterfeits, see that the name of the article is on the label, and embossed on the glass of the bottles, and our revenue stamp over the cork.

PACIFIC RAILWAY GOLD LOAN.

Messrs. DABNEY, MORGAN & CO., 53 Exchange Place, and M. K. JESUP & CO., 12 Pine Street, N. Y., offer for sale the Bonds of the Kansas Pacific Railway. These Bonds pay seven per cent. in Gold; have thirty years to run; are Free from Government Taxation; are secured by a Land Grant of Three Million Acres of the Finest Lands in Kansas and Colorado. In addition to this special grant the Company also owns Three Millions of Acres in Kansas, which are being rapidly sold to develop the country and improve the road. They are a first mortgage upon the extension of the road from Sheridan, Kansas, to Denver, Colorado. The road in operation, 437 miles long, upon which it is also a mortgage, NOW EARNS MORE THAN ENOUGH NET INCOME TO PAY THE INTEREST ON THE NEW LOAN. There is no better security in the market—this being in some respects better than Government Securities. PRINCIPAL AND INTEREST PAYABLE IN GOLD. Price 96, and accrued Interest, in Currency. OFFICE OF PITTSBURGH GAZETTE, THURESDAY, Sept. 23, 1869.

The days during the early period of the war were nothing in comparison to the excitement in Wall street. To-day gold opened at 142¾, declined to 141¾, reacted under a perfect panic among the shorts to 144, and closed at 143. From all appearance gold has not settled down yet, and in all probability another upward turn may be made to day before enough coupons can be presented to the Treasury to supply gold in large amounts, but nobody doubts the ultimate heavy decline arising from large shipments of cotton, grain, flour, petrolum and other products.

Governments were very dull and heavy during the day, until at the close, when large amounts were bought to cover short sales.

Stocks are still heavy, and declining under the pressure of a close and very stringent money market. The speculative shares are swept away in a moment.

Railroad bonds are dull, heavy and without any demand.

The local money market is working, also closer, in preparation of an active fall business.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, September 23, 1869.

The features of Wall street to-day were excitement in the gold room and another heavy advance in rates, stringency in money and a panicky feeling in stocks. The transactions in gold were on a scale of magnitude without precedent in the history of the room. The rise to-day was based partially on the expected recognition of the Cuban insurgents as belligerents at an early day.

Money was very stringent throughout the day, and in the afternoon the dealings on Broad street were revived; the rates paid were 7 per cent. per annum, and commissions of ¼, ⅜@½ per cent., while ¼ to ½ per cent. was paid for turning the stocks below par, and 1 to 2 per cent. for the high priced stocks. Late in the afternoon 2 per cent. was paid on Central and 2½ per cent. on Hudson River, while money itself brought a commission of ⅛ per. cent. The Hudson company to day passed a resolution in favor of consolidating with the New York Central, terms to be specified at a joint convention to be held in a few days. At the Central Directors' meeting, at Albany, yesterday, consolidation resolutions were passed. The Judge yesterday credited with issuing an injunction restraining the directors of the Central from acting in the consolidation matter, denies having done so. It is proposed to change the terms of the recent consolidation of the Lake Shore and Michigan Southern and Toledo, Wabash & Western Railway Companies. Southern is to be put in at par and Wabash at 75c, a dividend of 4 per cent., cash, to be paid on Southern on January 1st next, and after that the dividends are to be of an equal amount on both, the first dividend however, on Wabash not to be before July 1st, 1870. According to the new arrangement there is to be no script dividend on Michigan Southern.

Sterling is lower, and closed quiet and nominal; 4½ per cent. for sixty-day bills, and 5 per cent. on sight.

The gold market stands at 143⅜@143½, and the latest transactions were at these figures; the two extremes of the day were 141 and 144½; the fluctuations were so frequent that they filled six pages of the Gold Room ledger. The rates paid for carrying, flat, 1-32 to 7 per cent. Gold 1-16, 3-64, 3-32, 1-8, 3-16 and ¼ per cent. There is very little disposition to lend gold on time, and very high rates are offered for the use of it for 15, 30 or 60 days.

Governments been lower but closed firm: Coupons of 1881, 120¼; do. '62, 122¼@122⅜; do. '64, 120@120¼; do. '65, 120⅞@121; do. new 118½@118¾; do. '67, 118⅝@118¾; do. '68, 118½@118¾; 10-40s, 108¼@109¼; Pacifics, 107¾@108.

The Sub-Treasurer bought $1,000,000 at at 116@116-73-100.

Pacific Railway mortgages increasing in favor with investors, owing to large earnings of the road. The offerings are light. The earnings of Union Pacific road for the first seventeen days of September are officially reported at $409,493 11. A round lot of Union Pacific sold at 87¼. Central Pacific are quoted at 92½@95.

Stocks are feverish and unsettled, but geneaally firmer during the forenoon and early afternoon, but closed lower and panicky, particularly in Vanderbilt shares, which closed at the lowest rates of the day.

PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, THURSDAY, Sept. 23, 1869.

The oil market was somewhat excited and feverish to-day, under the influence of the advance in gold and general disruption in financial circles in New York, and while compared with yesterday, prices have undergone no material change, yet as already intimated, there was a very sensitive feeling manifested, and operators generally were disposed to hold off and await future developments. The worst feature noticeable to-day, was the report that some of the New Yorkers were unable to meet their drafts, and another thing that depresses the market is the unusual dullness of exchange. Heretofore, an advance in gold has been followed by an advance in oil, but latterly this has had little or no effect. Indeed to-day, right in the face of an important appreciation in the former, the latter would and did not bring the prices current yesterday; but this as already intimated, was attributed to the stagnation in foreign exchange, as well as the stringency in money matters in New York. As might be expected, considerable anxiety is felt as to the future course of the oil market; so far as we could learn, there are but few who entertain hopes of any material improvement during this month; there are some who expect a better state of affairs next month, while others, again, do not believe, that prices will rule higher, that is for any length of time, this year. This latter class, base their predictions on the ground that most if not all of our refiners will go into operation at once, and that the shipments will increase so largely that the supply will be fully adequate to the demand. Those who expect better prices next month and during the remainder of the year, argue that in no event will the supply be sufficient to meet the demand; that there will be more oil wanted from now until January 1st, than there was during the corresponding time last year; and that stocks east as well as in Europe are comparatively light. We have thus endeavored to give the feelings and views of some of the different elements engaged in the business, and that we have stated them correctly, and impartially no fair minded operator will dispute.

CRUDE.

But a single option reported—$1,000 was paid for the privilege of placing 5,000 bbls any time between this and April next, at 14, Spot was offered freely to-day, at 14¾ without finding buvers; and lines for late months, it is said, were offered at 14½. Seller all year, was wanted at 14, with no offers to sell below 14¼.

REFINED.

Market opened very weak and dull, but in the afternoon the feeling was rather better, and September sold at a slight advance. The only sale reported up to 3 P. M, was 1,000 bbls September, at 32; early in the day 31⅞@31¾ were the best offers. October was quoted at 32@32½, and the same figures will apply to lines.

NEW PUBLICATIONS.

ADAM BEDE. By George Eliot. Harper's Library Edition. With illustrations. Published by Harper & Bros., New York.

It hardly seems possible that a work so elegantly gotten upin green morocco cloth, printed on good paper, and clear open type, could be sold for the low price of seventy-five cents per volume. Such is the fact. It is a beautiful edition for library and home purposes, handy size, and suitable for the family circle, or on a journey. The work is among the few that will be read in years to come. Of the merits of Adam Bede it is unnecessary to speak, as few who commence its reading will cease until it is finished. The sale of the series ought to be large, and widely circulated, as it deserves to be.

AUNT DINAH'S PLEDGE. By Mrs. Mary Dwinell Chellis, anthor of "Temperance Doctor." Published by the National Temperance Society and Publishing House. J. N. Stearns, Publishing Agent. For sale by R. S. Davis & Co., Pittsburgh.

This story is one of much interest, and is especially adapted for family reading. It contains lessons of value to the young that are worthy of following. It describes the temptation of a youth, who was finally led into the path of safety through the instrumentality of old Aunt Dinah, a colored woman. Her pledge included swearing and smoking, as well as drinking. The book will do good and deserves to be scattered broadcast.

KOENIGSMARK The Legend of the Hounds and other Poems, by George H. Boker, published by J. B. Lippincott & Co., Philadelphia.

Mr. Boker has stood deservedly high for many years in lilerary circles. His dramatic powers are of a high order, and he has always ranked high, combining elements that few attain, writing a play suitable to place upon the boards in the very form it has been written. The plot, representing the schemes of a bad woman in a pretty German Court, presents phases of characters which brings out the genius and dramatic power of Mr. Boker. "The Legend of the Hounds" is a well wrought poem, and though a fearful one, contains passages of great beauty of thought. In the minor poems there are some exquisite verses, and the glowing fire infused into the patriotic ones will represent the decided views and course of the poet during our dark days. "Koenigmark" should be regarded as an acquisition to the genuine poetry of the day.

BERTIE'S BIRTH-DAY PRESENT; or, Patience Rewarded. Published by Henry Hoyt, Boston. For sale by F. G. Reineman, Pittsburgh.

Much may be learned in this little story that will do young people good. The gift to Bertie was designed to teach her how to be patient and happy, and the simple present had the desired effect, in making impressions that she never forgot. It is a pleasant story and such as any parent may place in the hands of their children in safety.

LITTLE ROOKWOOD. Published by Henry Hoyt, Boston. For sale by F. G. Reineman, Pittsburgh.

This little work will richly reward every young person that reads it. The story itself is not only delightfully told, but there is a healthy moral tone throughout, that will leave good impressions on the mind of the reader. It is an excellent work for the family circle.

WALTER OGILBY. A Novel. By the Authoress of "Wau-Bun." Two volumes in one. Published by J. B. Lippincott & Co., Philadelphia.

In this stout book of six hundred pages we have quite a spirited story, in which the leading characters are admirably presented. It is full of sketchy *bon mots* and passages relating to the tender question—love. The plot is rather diffuse, but cleverly executed considering the extended circle of events described. Its chief excellence is its vivacity of style, charming descriptions, elevated tone, and avoidance of the sensational type of some novels. The authoress has made quite an addition to American novels. It is elegantly printed, and bound in purple morroco cloth.

SHINING LIGHT.—By the author of "Memorials of Captain Hedley Vicars." Published by Robt. Carter and Brothers, New York. For sale by S. A. Clarke & Co., Pittsburgh.

Valuable truths are compressed in this little volume that will tend to spiritualize the mind and heart, and lift the soul up to God and heavenly things. Each chapter of the "Shining Light" is short but couched in terse, vigorous and evangelical language. It is an excelent pocket companion, and reminderer of duty.

NEW YORK ILLUSTRATED. Published by D. Appleton & Co, New York. For sale by S. A. Clark & Co., Pittsburgh.

This is a capital hand-book for visitors to the metropolis, and gives an excellent view of noted places, streets, churches, etc., with full explanatory text. It will also impart much information to those who cannot visit it, but desire to know something of its greatness and grandeur. The illustrations are very superior for wood cuts.

ELEMENTS OF THE GREEK LANGUAGE. Taken from the Greek Grammar of James Hadley, Professor in Yale College. Published by D. Appleton & Co., New York- For sale by S. A. Clarke & Co., Pittsburgh.

It was supposed at the time Prof. Hadley's Greek Grammar was published, that it would not only serve advanced students in the study of that language, but also would be useful for elementary instruction. It was, however, deemed best to prepare an abridgment of the work, suited to the wants of the beginner. This book is the result, which preserves the same mode of treatment observed in the larger work, except to change some forms of expression. The fine reputation of Prof. Hadley for scholastic abilities and pre-eminence in this department is not questioned. This work is admirably adapted to supply the want required, and no doubt will attain a standard reputation. Advanced students may also study it with profit.

BIBLE WONDERS. By the Rev. Richard Newton, D. D., Author of "Bible Jewels," etc. Published by Robert Carter & Brothers, New York. For sale by S. A. Clarke & Co., Pittsburgh.

Few writers equal Dr. Newton in the rare talent of writing and speaking on Scriptural subjects, in a popular form, for the entertainment and instruction of young people. This divine enjoys the double reputation of being a charming writer for youth, and is equally superior as a speaker to an audience of young people. The "Bible Wonders" embrace ten chapters, each presenting a different view, in language simple yet forcible, and brimful of pointed and striking incidents, at once valuable and instructive.

HENRY ESMOND AND LOVEL THE WIDOWER. By W. M. Thackeray. Published by Harper & Brothers, New York.

This edition of Harpers' is remarkable for its cheapness, and cheap as it is sold, the paper is fine and white, and the print bright and cheerful. Persons may bind several of these pamphlet volumes of the series, and thus secure an elegant copy of Thackeray's works. No one need be told of the merits of the great satirist's writings.

COUNTESS GISELA. By E. Marlitt, author of "Gold Elsie," "The Old Mam'selle's Secret" etc.

FOUND DEAD. By author of "Carlyon's Year," "One of the Family," etc. Published by Harper Brothers, New York.

Recent translastions from the German, have had quite a streak of success. Among the recent translations, "Countess Gisela," has been received with marked favor by the lovers of fiction. The reader cannot help being interested in the presentation of the diffierent characters. It is thoroughly German throughout and as it is a new vein in light reading, and is a change from English and American works of fiction, it will be relished by many.

"Found Dead" has just been received. From a cursory examination we think the good reputation of the author will not suffer by this publication. It will interest the reader from the out set and hold it till the close.

Sir John Franklin—The Record Found.

The San Francisco *Bulletin* gives the following communication, of which the telegraph has already given some account:

"*News from Sir John Franklin.*—Found on the beach at San Buenaventura, on the 30th of August last, a document measuring 13 by 10 inches, much mutilated, requesting the finder to forward it to the Secretary of the Admiralty at London, or the British Consul at the nearest point. This request is printed in six commercial languages. The margin and every vacant portion of it has been filled up with writing relating to Sir John Franklin and his party, and was evidently cast to the waves in latitude 69 degrees 37 minutes 42 seconds, and longitude 98 degrees 4 minutes and 5 seconds. It gives an account of the desertion of the ships Erebus and Terror. At the time of the desertion the party numbered 105 souls, under the command of F. R. M. Crozier, and succeeded in getting as far South as the latitude and longitude mentioned above. Here they found relics of the late Sir John Ross. The document states that Sir John Franklin and party wintered at Beechy Island in 1846-7, in latitude 74 degrees 49 minutes 29 seconds and longitude 91 degrees 35 minutes and 15 seconda, having descended Wellington Channel to latitude 77 degrees, and returned by the west side of Cornwallis Island. It also states that Sir John Franklin died on the 11th of June, 1847. It contains accounts of many interesting incidents conneeted with the expedition, which will be made known hereafter. The document was found by James Daly of the firm of Daly & Rodgers, lumber merchants, San Buenaventura.

"San Buenaventura, Sept., 8, 1860."

The *Bulletin* adds: That the document referred to above may have been found on the beach at San Buenaventura, in a bottle or otherwise, is entirely probable; the next question relates to its authenticity and value. So far as its contents are given by our correspondent, they tell us nothing but what McClintock's voyage discovered as long ago as 1859, in relation to the abandonment of the Erebus and Terror, except that the records found by McClintock put the date of the abandonment in April, 1848, and did not say Sir John had died. The person who found the document, if he believes it is not a hoax, will send it to the British Consul in this city, and transcribe its full contents for publication. Meanwhile we give his statement for what it is worth. Possibly some ingenious wag has taken a hint from Hugo's *L' Homme qui rit*, the plot of which turns on the discovery of a bottle containing a wonderful revelation, twenty years after it had been thrown into the sea by a sinking crew.

ADIEU TO CHIGNONS.—The Empress has decreed that high puffs and frizettes shall no longer exist. The chatelaine braids, looped at the back of the head and falling to the shoulders, are hereafter the style. There is an evident trace of the changes in the Empress' sentiments in these modes of hair dressing and the fashions that follow them. In her brilliant prime she emulated the splendors and frivolities of Marie Antoinette's court and the *minauderies* of La Vallerie and Pompadour. In her pensive and graceful decline she reverts to the stately and exclusive manners of the ancient chatelaines. These suit the hoopless skirt of flowing velvet or poult, the cavalier plume and the wide brimmed hat, the embroidered gauntlet and the drooping braids. One will no longer recognize the fashions of the *demi monde* and of kings' favorites in the allurements of coquettish puffs and long crimped tresses, in the dress fluttering with ribbons and bows and lightened with bouillions; a quiet, more decorous and aristocratic style, none the less costly, has its advent with the chatelaine braids.

SPECIAL NOTICES.

SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the livor and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and as soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his recovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every Saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. mv19:151-d&F

The Case of W. C. Wray,—Yesterday afternoon at 5 o'clock his Honor Judge Williams, of the Supreme Court, granted a special allocatur in the case of W. C. Wray *et al*, recently tried and convicted at Uniontown of burglary. This removes the case to the Supreme Court, which will meet in this city in the latter part of October. We are reliably informed that this will act as a supersedeas in the case. The writ was granted on application of John Coyle and W. C. Moreland, counsel for defendant.

We desire, in a pleasant yet pointed mannner, to impress upon the minds of the ever faithful guardians of the night (and morning) that, in the course of time the days have become shorter and, as a consequence the nights are lengthened in proportion. Hence it is not desirable that the luminaries which serve to guide early pedestrians along the sidewalks—at times unseemly rough—be extinguished at the same hour they were about the longest day of June. Not before five in the morning, if you please.

Death of an Estimable Lady.—Miss Matilda Markham, an estimble Christian lady well known in educational circles in this city, died at the residence of Mr. James McMasters, Penn street, yesterday afternoon after a comparatively brief illness. She was for more than twenty-five years a school teacher and governess and has been engaged in such capacities in this city for more than fifteen years. She was a native of New Lisbon, Ohio. Possessing an education which made her conspicuous among the cultured and refined of the city, she was an ornament to society and was universally respected and admired. Her funeral will take place this afternoon at three o'clock from Mr. McMasters' residence, No. 312 Penn street.

Our Attention has been repeatedly called to the driving of cattle through the streets of our cities, a practice which has long since become a crying nuisance. In conjunction with this is the intolerable stench which prevades the outskirts of our cities in various directions, destroying much of the value of property along what otherwise would be some of our most charming and delightful drives. The cattle driving and slaughtering questions are of no little importance and are, and have been for years, attracting the attention which they deserve in the larger cities of the world, New York has taken hold of the Paris plan of public abbattors, or slaughter-houses in one portion of the suburbs, and has carried it out with marked success, and with a cleanliness, without which the plan would be utterly disgusting and impracticable, and which allows but little of the usual odor of the slaughter-pens to become apparent. The plan ought to work well here, and if not, some other plan which would, should be obtained and acted upon. At present nearly if not quite one half of our suburban roads can only be reached through a foetid atmosphere and nearly all of the meat used on the south side is driven alive from the north side of Allegheny through our most crowded streets, and at the peril of our lives to the south side slaughtering places, instead of all being killed in one place and carted dead to the butchers. We hope the authorities will look to this but fear that our various municipalities can hardly harmonize on this any more than they can on any other great question of public importance.

Riot at McKeesport.

A difficulty occurred at the house of Catharine Seidel, of McKeesport, Wednesday, of a riotous character, in consequence of which that lady made information before the Mayor charging James and Thomas Purcell, of Saltsburg, and George, Hugh and John Laughery, of Port Perry, with riot. A warrant was issued, and Wednesday night a force of the Mayor's police went up on the ten o'clock train on the Connellsville road and arrested three of the accused, who are now in the lock up awaiting a hearing.

POLITICAL.

Another Rally at City Hall—Address by R. Stockett Matthews, Esq.

City Hall was filled Thursday evening by Republican citizens, called together for the purpose of hearing an address from R. Stockett Matthews, Esq., of Baltimore, who was announced to deliver an address.

J. Scott Ferguson, Esq., called the assemblage to order and announced F. B. Penniman, editor of the GAZETTE, as Chairman, with twenty-one Vice Presidents and the usual number of Secretaries.

Returning thanks for the honor conferred in calling him to preside, Mr. Penniman said he would proceed at once to the discharge of the duty imposed of introducing the distinguished orator of the evening.

Mr, Mathews was received with enthusiastic cheers, giving unmistakable assurance that our people remembered his effective service in the Republican cause in this vicinity, as well as throughout our State, in the past. We will not attempt even the merest outline of his speech. It was thrillingly eloquent throughout, and drew forth at times the most unbounded applause. He confined himself to a general review of the political parties, and his excoriations of Democracy, as he traced its history from the long past up to the present, were severe in the extreme. From a party of progress, of universal liberty, it had degenerated most sadly. When it arrayed itself against the life of the nation, all the good men departed from it, never to return. With the surrender of Lee at Appomatox came the most crushing blow to that party, from which, however, it partially recovered through the treachery of that worse than perjured traitor, Andrew Johnson, but only to be again thwarted by a determined loyal Congress, whom the people most triumphantly sustained in 1868. The speaker recounted the trials and recent triumph of the Republican party, whose mission was yet unfulfilled. It remained for that party to demonstrate yet more strikingly to the entire world that the Republic was the only safeguard for freedom.

In the coming contest he felt sure Pennsylvania would prove herself true to the Republican cause, in repudiating the claim of Asa Packer to the Gubernatorial chair, Her people would never consent to be ruled by such a demagogue, a fit representative of the Democratic party of the day, but leave him to alternate between Mauch Chunk and Philadelphia, dodging the revenue assessor and the county tax collector.

In conclusion he gave a glowing picture of the greatness of our country, of its present prosperity, and of its destiny under Republican rule.

The speech had a marked effect upon the audience. Notwithstanding two hours at least were occupied in its delivery, the crowd evinced no sign of weariness, and would willingly have remained longer, manifesting the same degree of appreciation, had the speaker chosen to further tax his power of endurance. His closing remarks could scarcely be fully appreciated by the reader, if faithfully reported, for while the language used was of the choicest, the utterance and manner of the speaker in connection produced a thrill of patriotic enthusiasm in the assemblage, which found vent in deafening applause as he retired.

Calls were made for Hon. Andrew Stewart, of Fayette county, who was noticed on the stand, but the old gentleman declined speaking.

The Chairman proposed three cheers for the Republican State ticket, Geary and Williams, which were given with heartiness.

The meeting then adjourned.

Mass Meeting at Etna.

A very large and orderly Republican Mass Meeting was held in Etna borough on Wednesday evening. The meeting was called to order by Col. John A. Danks acting as President, George Keil, Esq., Vice-President and J. L. Lloyd, Esq., Secretary. Col. Danks made a brief opening address and then introduced John H. Kerr, Esq., candidate for Assembly on the Republican ticket. Mr, Kerr held the vast audience almost spell-bound for over one hour and delivered an extraordinarily solid, sensible and truth-telling speech during and at the conclusion of which he was enthusiastically applauded.

W. C. Moreland, Esq., was then called upon amidst a storm of welcome applause, and delivered one of the most candid, able and logical political speeches we have ever heard. Mr. Moreland interspersed his speech or arguments with a number of witty or applicable anecdotes, as well as references to ancient and modern political history, which drew forth the heartiest plaudits of the assemblage, and concluded his address by a merited tribute to Governor Geary.

Henry Butterfield, Esq, then mounted the rostrum, and was very enthusiastically received, but the lateness of the hour prevented the gentleman from making any extended remarks. The meeting adjourned by Col. Danks singing the populer patriotic song "A Thousand Years," and three cheers for Governor Geary, Williams and the ticket.

Meeting at Elizabeth.

A large and interesting Republican meeting was held at the borough of Elizabeth Wednesday. The meeting was organized by the election of the following officers: President, Geo. Roberts, Secretary, J. N. Laughlin.

Thos. Howard, Esq. was then called upon and addressed the meeting at length, and was followed by T. M. Bayne and W. S. M'Cune, Esqs., both able speakers.

FIRE IN ALLEGHENY.

Explosion of Burning Fluid—Two Houses Burned—One Man Injured.

A fire occured on Beaver avenue in the Fifth Ward, Allegheny, about half past nine o'clock Wednesday night, by which two houses were destroyed. The fire originated on the first floor of a two story frame building owned by Mr. Christine Garber. The room was occupied by Mr. Joseph Denich as a grocery store. It appears that Mr. D. at the time the fire occured, was in the back part of the building drawing some burning fluid from a barrel, when from some unknown cause, the fluid ignited, Mr. D. in the excitement droped the measure which was full of the fluid on the floor, and without turning the spigot to stop the flow from the barrel, ran out to get a blanket with which to smother the flames. In a moment or two the whole inside of the room was in a flame. An alarm was sounded from box No. 3, and in a short time the entire fire department of Allegheny were on the grounds and in service, and in less than twenty minutes had the flames in subjection, flut this was not the end of the conflagration.

It appears that the oil had run through the floor to the cellar, which was filled with water to within a foot of the floor, and while several firemen were in the second story of the building the gas arising from the heated oil or fluid in the cellar, ignited, and with a loud explosion tore up the hearth and a portion of the first floor, enveloping the entire building in flames. In the second story of the building, where the explosion took place, were Chief Engineer James Crow and several other men at work. They were instantly surrounded by fire, apparently with all means of eseape cut off. Mr. Crow ran to a window and called for a ladder, but the crowd frightened by the explosion, had ran from the front of the building. Mr. Crow leaped from the window to the sidewalk, escaping with only a general "shaking up" that brought no serious results. Mr. Henry Wagner, a tavern keeper, leaped out of the window after Mr. Crow, but did not escape so fortunately, one of his legs being broken in two places. As quickly as possible Mr. Crow secured a ladder and placed it at the window, and the remaining men hastened down. Hutchinson, in getting down, fell and injured his arm and leg, but without breaking either. Peter Mahr jumped and injured his arm, but not seriously. Henry Garber, before he could effect his escape, was quite badly burned about the face and head. Andrew Warner was also severely burned about the face and hands, and Wm. J. Davis was burned quite severely, and also had his wrist sprained in reaching the ground.

The firemen remained at their posts and worked valliantly, but were unable to subdue the flames until the building and its contents and a one story frame building adjoining it, occupied by Mr. Jacob Seigel, were destroyed. Mr. Garber's loss on the building will approximate $2,000, on which there is an insurance of $1,000. Mr. Denich's loss will be between $100 and $500. He has no insurance. A part of his loss was twenty-five dollars in money.

The Iron Manufacturers—Advance in Prices—Card Rates.

A Convention of the Western Iron and Nail Manufacturers was held in the rooms of the Iron Manufacturers' Association, Water street, this city, Wednesday afternoon. Representatives from all the mills in this vicinity, Wheeling, Cincinnati and Mahoning Valley were present.

The unanimous sentiment of the Association was that an advance in the price of iron and nails was necessary in order to cover the cost of manufacturing and business expenses.

On motion, the following card rates were adopted:

Iron 3¾ cents with concession of ¼ cent profits on orders of 10 tons or over, and nails $4.50, less 12½ cents, per keg, when ordered in 100 keg lots or upwards.

Terms: sixty days for approved paper, or 3 per cent. for cash, remitted on receipt of invoice.

From the general tone of the meeting, there can be but little doubt but that the above prices and terms will be strictly adhered to in every particular, as it is claimed that the present rates give no margin to manufacturers whatever.

A Case of Cholera.

Mr. William Lynn an engineer residing on Carson street in Burmingham was yesterday attacted by the real Asiatic Cholera from which we learned last evening he had died. He was attended by Dr. Duff of the South side and yesterday afternoon a consultation in the case was held with Dr. George L. McCook. Both of the physicians concurred in setting the case as one of genuine cholera. The diseased was a man of excellent habits. This should be a warning to all readers to adopt such sanitary measures as may be deemed prudent for the preservation of the general health. Some parts of Birmingham are in a frightful condition, filthy beyond name, and we can hardly expect good health to reign in such localities. We heard it rumored on Wednesday that there had been a death in the same borough on that day but we could not ascertain such to be the fact.

Skillful Operation.

We have already noticed that about ten o'clock last Tuesday night two boys had a quarrel iu Denny's alley, Fifth ward, when one threw a brick at the other, which, missing its aim, struck Cornelius Sexton, an unoffending boy, above the right temple, producing an extensive fracture. A deep depression in the skull was made by a corner of the brick. The boy was taken up senseless and carried to his home near by, where Drs. M'Meal and Brashear were summoned. It was found necessary to trepan the head in order to remove the shattered fragments and raise up the depressed portions to their proper place. The boy remained in a state of insensibility until seven o'clock yesterday morning, when he awoke to consciousness and the use of his limbs. At this time there is good hope of recovery.

What Was Needed.

That crime is increasing—almost rampant, in the city and neighborhood—there is no denying. That it should be checked—villains arrested, and honest men made right, is equally certain. With these ends in view, we are informed, Alderman Butler, assisted by such experienced and trusty officers as John Fox, John Herron, Wm. J. Logan, H. B. McCurry and Charles Havis, have established at the office of the Alderman, No. 116 Wylie street, an agency for the transaction of all business in that line. These gentlemen require no endorsement here.

That is, they could be compelled to pass an ordinance now, providing for the refunding of the money at any time within ten years The communication was received and filed.

Councils adjourned.

THE COURTS.

Quarter Sessions—Judge Mellon.

THURSDAY Sept. 23.—In the case of the commonwealth *vs* Charles Gilkey indicted for the larceny of a cow reported yesterday, the Jury returned a verdict of not guilty. The defendent was remanded to jail for trial on a charge of horse stealing.

The first case taken up was that of the Commonwealth vs. Conrad Schussler, indicted for felonious assault and battery, Robert Hague prosecutor. The defendant and a Mr. Knoeckle rented in partnership the farm of James Irwin, in Reserve township, and occupied the farm in partnership. On or about the 15th of August a difficulty arose between the parties concerning the right to occupy the barn, when, it is alleged, the defendant made an attack upon John Mardin, a man in Knoekle's employ, with a knife, inflicting a number of severe wounds upon different parts of his body. The parties and witnesses were all German, and unable to speak English, and the testimony had all to be interpreted. Jury out.

The following surety and abandonment cases will be taken up on *Saturday morning* at ten o'clock. Parties interested must be in Court, otherwise the cases may be dismissed at the cost of the parties not appearing:

THURSDAY, September 23.—The cases previously reported are still on trial.

Judge McCandless.

We clip the following from the Williamsport *Gazette* of the 21st inst. We give the Williamsport editor no credit for anything said in his notice of Judge McCandless—his judicial acumen, his accommodating disposition, his ever happy manner of performing, even unpleasant duties, his ready wit, his vein of humor, his cordial geniality, are to us in Pittsburgh, familiar traits of his Honor. We don't blame the Williamsporters for their admiration of the Judge or of his wife, son and daughters; knowing them as they are known here, they could not but admire—they would be boors if they did'nt:

"The Sept. term of U. S. Court, presided over by Judge McCandless, adjourned yesterday, and the Judge and his wife, son and two daughters, who have been with him during his stay here, leave our city to-day.

Those who have had the pleasure to mingle in their society during their short stay will regret their departure, and we trust they are as well pleased with their visit as our people have been with their society.

Usually there has been but one term of this Court held here in the year, and that in the month of June, but the accumulated business has rendered it necessary that there should be two sessions as is authorized by law, and Judge McCandless, who is obliging in his nature, has very properly accommodated the Bar, and the suitors in this section of the country; not only in this has he satisfied our people, but especially for the manner in which he dispatched the business.

The Judge is a man of quick perceptive faculties, firm in his decision, while his sentences are tempered with mercy. He is becoming more popular from time to time as he is holding his Courts here, both with the members of the Bar and the people, and we trust that he may long be permitted to enjoy life and health, and that we may have the pleasure of seeing him and his family with us at the next term of Court.

PETROLEUM.

Falling off in Franklin District—New Wells Struck—The Black Oil Product.

We glean the following from the Titusville *Herald* of the 22d:

The production of Lubricating oil in the vicinity of Franklin has fallen off lately, and now does not exceed twelve barrels daily. A number of wells were sunk on this belt this year, but none of them have produced more than two barrels daily for any considerable length of time. Only one well is now in process of drilling. The price, delivered on the cars at Franklin, is now $12 per barrel of 43 gallons.

A new ten barrel well was struck on West Hickory creek last week. It is owned by Messrs. Roberts & Canfield. Last week a new well was struck on the Tallman farm, Upper Cherry run, and yesterday the production was reliably reported at sixty barrels daily. The well is owned by Messrs. Lyman Stewart & F. W. Andrews. Recently, Mr. H. R. Davis struck a new eight barrel black oil well on the southern part of the Caldwell farm, Bull run. This well is located midway between the producing wells on Bull run and those on the A. Boyd and Coxton farms, and its success is taken as indicating to a certainty that the territory interventing beween the farms named and Bull run, which aggregates, perhaps, fifty acres, is of the producing order. Another new well has been commenced in the immediate vicinity of Mr. Davis', and several more will be started within a few weeks. Last week a new well was struck on the Sailsbury farm, West Pithole creek. Shortly after pumping was commenced it began to produce oil, and, for a time, the rate of production was as high as seventy-five barrels. Subsequently the production fell off greatly on account of the seed bag having given way, or a water vein having been opened, and since Friday last the yield has not been over eight barrels daily. The well is owned by Mr. Wm. Foe, formerly of Atkinson, Upper Cherry run. It is expected that as soon as the water is exhausted the production will increase materially.

It may not be generally known that the quantity of black oil produced in Pennsylvania is equal to at least one-fifth of the whole product, but such is the fact. The great black oil yielding district, is that known as Pleasantville, which extends from the Independent farm on the south, to the Nettletan tract on the noth east, and yield about 1,000 barrels daily. Then there are the black oil districts of upper Cherry run and the district at Bean farm and vicinity, which yield at least 1,000 barrels daily. The yield of the districts named above aggregates 1,100 barrels, to which must be added the yield of three or four farms on West Pithole creek, and that of the black oil districts of Bull and Cherry-tree runs, which will certainly amount to 400 barrels more, making a total yield of 2,500 barrels daily. The importance of the fact that this quantity is being produced will be understood when it is known that black oil yields three per cent. less refined, and three per cent. more residum than green oil of the same gravity. When the enormous quantity that is produced annually is taken into consideration, it is a matter of no little consequence, that the proportionate yield of black oil has not been, and, probably, will not be less this year, than one-fifth. With the decline in the product of the Pleasantville district, and the abandoning of the black oil producing sand rock on Upper Cherry run for that which produces green oil, it was thought that the product of black oil would fall off materially, but, recently, the yield at Bean farm, in the vicinity of Bull run and on West Pithole creek, increased, and appearance now indicate that the black oil territory on Cherry-tree run will be extended.
